**United Nations Group of Experts on
Geographical Names**

2021 session

New York, 3 – 7 May 2021

Item 4 (a) of the provisional agenda*

**Reports: Governments on the situation in their countries and on the progress made in the
standardization of geographical names**

United Nations Group of Experts on Geographical Names

****National report of Republic of Croatia for the period from 2019 to
2020**

* GEGN.2/2021

** The report was prepared by State Geodetic Administration, Republic of Croatia, European Union. The report will be available at https://unstats.un.org/unsd/ungegn/sessions/2nd_session_2021/, in the language of submission only, as document GEGN.2/2021/21/CRP.21.

National report

A

Summary

A short summary, which describes main points of the national report. This part is also usually sent in a separate document before the national report.

This National report will present activities in the field of standardization of geographical names in the Republic of Croatia, considering the previous National report, in the period from March 2019 to December 2020. Based on the Law on State Survey and Real Property Cadaster (Official Gazette, 112/2018), and with the aim of uniform standardization of geographical names in the Republic of Croatia, the Government of the Republic of Croatia appointed a Commission for the Standardization of Geographical Names at the end of March 2019. The Commission, as a multidisciplinary and multi-institutional body, is composed of experts in the fields of geodesy, geography, linguistics, cartography, hydrography, history, culture, international relations, as well as science and education. The President of the Commission is the Director General of the State Geodetic Administration of the Republic of Croatia, PhD Damir Šantek, as a representative of the central state administration body responsible for the Register of Geographical Names. The Commission for the Standardization of Geographical Names, within the tasks prescribed by Law, makes recommendations for standardization of geographical names, monitors the implementation of regulations on settlements and their application in geographical names, conducts revision of toponyms and, if necessary, determines new ones, determines the principles of writing and use of foreign geographical names for application in education, science, Croatian diplomacy, etc. Also, the Commission makes proposals and recommendations for improving the register of geographical names and participates in the work of international organizations dealing with geographical names. The tasks of standardization of geographical names are performed by public law bodies in accordance with the recommendations of the Commission for the Standardization of Geographical Names. From the beginning of June 2019 to the middle of December 2020, the Commission held four sessions and consequently adopted two Recommendations for standardization of geographical names in the Republic of Croatia (naming of settlements, streets and squares and writing and use of geographical names from foreign languages), and on the basis of which the Coordination for the Economy of the Government of the Republic of Croatia, for the first time in its history, in November 2020, adopted a Conclusion supporting the implementation of above Recommendations. The Law on State Survey and Real Property Cadaster defines, among other things, the term *geographical name* and the role of the Register of Geographical Names in which data on geographical names in the Republic of Croatia are kept and maintained. In May 2020, the Ordinance on the Register of Geographical Names (Official Gazette 59/2020) was published, which prescribes the content, manner of keeping and maintaining the register of geographical names. Keeping and maintaining the register of geographical names is the responsibility of the State Geodetic Administration of the Republic of Croatia. The Catalog of Geographical Objects is an integral part of the aforementioned Ordinance. In June 2020, based on the Ordinance, the Specification of the Register of Geographical Names was published. In June 2019, the functionality of the online application of the Register of Geographical Names was improved (<https://rgi.dgu.hr/rgiapp/>), and all information on the Register of Geographical Names in the Republic of Croatia is available on the redesigned (October 2020) website <https://rgi.dgu.hr/>. Also, in October 2020 the Online edition of Croatian exonyms was conducted at the Miroslav Krleža Institute of Lexicography (<https://egzonimi.lzmk.hr/>). At the international level, at the end of January 2020, a bilateral meeting was organized between the representatives of the Commission for the Standardization of Geographical Names of the Republic of Croatia and the representatives of the Commission for Standardization of Geographical Names of the Government of the Republic of Slovenia.

B	<p>Member state report on the situation in their country</p> <p><i>The progress made in the standardization of geographical names since the last UNGEGN session (news in the field of geonames in the country, progress of ongoing projects, finished projects, issues and use cases for inspiration for other countries, changes in database of geonames).</i></p>	<p>March 2019 - the Government of the Republic of Croatia appointed a Commission for the Standardization of Geographical Names.</p> <p>June 2019 – December 2020 - the Commission adopted two Recommendations for standardization of geographical names in the Republic of Croatia (naming of settlements, streets and squares and writing and use of geographical names from foreign languages). The Coordination for the Economy of the Government of the Republic of Croatia adopted a Conclusion supporting the implementation of Recommendations.</p>
C	<p>National and international meetings, conferences, symposiums, publicity and publications</p> <ul style="list-style-type: none"> - date of the meeting - name of the meeting - place of the meeting - main theme - useful information from the meeting - in case of publications, guidelines: how often are they issued, what is the content of these publications - publicity: articles in international professional magazines, publication of own professional magazines. 	<p>January 2020, Ljubljana, Republic of Slovenia, EU - bilateral meeting between the representatives of the Commission for the Standardization of Geographical Names of the Republic of Croatia and the representatives of the Commission for Standardization of Geographical Names of the Government of the Republic of Slovenia. The aim of the visit was to exchange experiences in the field of standardization of geographical names.</p>
D	<p>Measures taken and proposed to implement United Nations resolutions on the standardization of geographical names, including the economic and social benefits</p> <p><i>Information, recommendations, guidelines in legislative, control management.</i></p>	<p><i>Without changes: the country is solving or has solved the theme but has no news in this period.</i></p>
E	National standardization	
Ea	Field collection of names	<i>Without changes: the theme hasn't been solved in this country yet – it hasn't been necessary or it hasn't been possible.</i>
Eb	Office treatment of names	<i>Unsolved: the country is solving or has solved the theme but has no news in this period.</i>
Ec	Treatment of names in multilingual areas	<i>Without changes: the theme hasn't been solved in this country yet – it hasn't been necessary or it hasn't been possible.</i>

Ed	Administrative structure of national names authorities, legislation, policies and procedures	<p>March 2019 - the Government of the Republic of Croatia appointed a Commission for the Standardization of Geographical Names.</p> <p>May 2020</p> <ul style="list-style-type: none"> - Recommendations for standardization of geographical names in the Republic of Croatia - naming of settlements, streets and squares - Recommendations for standardization of geographical names in the Republic of Croatia - writing and use of geographical names from foreign languages. <p>May 2020 - the Ordinance on the Register of Geographical Names (Official Gazette 59/2020) was published (the Catalog of Geographical Objects is an integral part of the aforementioned Ordinance).</p> <p>June 2020 - the Specification of the Register of Geographical Names, based on the Ordinance, was published.</p> <p>November 2020 - The Coordination for the Economy of the Government of the Republic of Croatia adopted a Conclusion supporting the implementation of Recommendations.</p>
Ee	Toponymic guidelines for map editors and other editors	<i>Without changes: the theme hasn't been solved in this country yet – it hasn't been necessary or it hasn't been possible.</i>
F.	Geographical names as culture, heritage and identity <i>Including indigenous, minority and regional language names.</i>	<i>Without changes: the theme hasn't been solved in this country yet – it hasn't been necessary or it hasn't been possible.</i>
